City Council Studies Traffic Plan

A plan proposed by the Citizens Traffic Study Committee for removing the traffic snarl around the Southern Pacific station during rush hours moved a step closer to reality at the Redwood City City Council meeting Tuesday.

While the plan in general met the approval of the council, several suggestions were made in an effort to simplify it.

Councilman Carl Britschgi suggested that James St., Winklebleck St. and the "driveways" running parallel to the SP tracks between Broadway and Winklebleck be made into permanent one-way streets. The plan had recommended they be one-way streets during rush hours only.

GENERAL PLAN

In general the plan proposed that all traffic moving toward the SP station between 5:30 and 6:30 p.m. travel down James St. or from Broadway into the "driveway" that runs parallel to the railroad tracks. Traffic moving away from the station would travel up Winklebleck St., turn South or North on California or go straight out to El Camino Real. Automobiles would park facing West on Winklebleck and East on James.

Britschgi pointed out that confusion might result if cars were permitted to park facing only one direction on a street that was two-way part of the day. Also, if cars were permitted to park at either side of a two-way street in a normal manner and the street was made into a one-way thoroughfare during rush hours, drivers parked facing the flow of traffic would have to wait until the traffic cleared before they could move. Permanent one-way streets he thought would eliminate the problem.

ONE-WAY STREETS

Under this plan, James St. and the "driveway" would be permanent one-way streets leading to the station and Winklebleck St. would be a one-way street carrying traffic away from the station. California St. would be a two-way street except at rush hours. During the peak hours California St. would carry traffic from Winklebleck to Broadway or to James St., but traffic would not be allowed to enter California from Broadway or James St.

Mayor Floyd Granger also suggested that cars parked near the Southwest corner of the SP station should be backed into their parking places so as not to interfere with traffic when they are taken out.

City Atty. Paul A. McCarthy, who is drawing up the ordinance, said he would incorporate the suggestions and present the revised form to the council at the next meeting.

EXCHANGE: Carscallen Praises R.C. Advantages

Henry M. Carscallen, president of Red Feather Products, Ltd., second largest producer of stencils in the United States this week praised the industrial advantages offered by Redwood City but urged improvement of these advantages to bring more manufactories to the community.

Speaking before the Redwood City Exchange Club Carscallen said his firm has increased its production 700 per cent as a result of the war.

"We like Redwood City as a home of enterprise," he declared. "We believe a great deal can be accomplished in Redwood City toward those things vital to bring manufacturers of all classifications to this part of the Bay Area.

"The inherent factors are valuable, conducive and inviting. Much could be done to bring more manufacturers here."

Carscallen spoke of the difficulties of producing stencils and other duplicating materials under war conditions. Chairman of the meeting was Wilbur H. Doxsee.

Henry Nissen and Francis Tinney were elected members of the Exchange Club board of control.

Next Tuesday the Redwood City club will be host to other Exchange Clubs in the Bay Area at a district meeting.

S.C. Women Receive Uniforms

SAN CARLOS—The first uniforms for women in the civilian defense organization here were received this week by Mrs. Edna Mitchell, personnel officer, and Mrs. Edwin Lobazin, chief daytime air raid warden.

The two-piece spun rayon suits are of defense blue, with brass buttons, and are worn with blue overseas caps.

Mrs. Mitchell said that they needed "a little adjusting here and there" and that both officers would wear them when on duty beginning next week.

Mrs. Mitchell has charge of the office at civilian defense headquarters in the city hall where she maintains office hours from 9 a.m. to 1 p.m. daily during the week, and 1 to 4 p.m. Saturday afternoons.

The length of one degree of longitude along the equator is about 69 miles.

Firemen Extinguish Grass Blaze

Both the Woodside and the Menlo Park fire departments responded to a fire on a 360-acre ranch on Woodside Rd. west of Alameda de las Pulgas which started Monday at 10:39.

About three-quarters of an acre of vetch, a crop raised for cattle feed, was burned over but no other damage was done, firemen said. The blaze was extinguished in about 20 minutes. Woodside sent two trucks and Menlo Park sent one.

Mayors Return From Ceremony

San Mateo County now has its name on a tank in the 13th Armored Division officially sponsored by the state of California at Fourth of July ceremonies at Camp Beale.

A. H. Sagehorn, in the absence of other San Mateo County officials, registered to represent the county in his capacity as treasurer, although he had gone as mayor of San Carlos to take part in christening of combat vehicles for California cities.

Mayor Floyd Granger was present to christen a tank for Redwood City; Postmaster Frank P. O'Brien participated in the christening as representative of Belmont; City Mgr. W. D. Soule represented San Mateo; Cecil L. Longson, superintendent of public works in Burlingame, represented that city, and City Councilman G. W. Holson took part in the ceremonies for South San Francisco.

Sagehorn said today, "We were shown every hospitality and it was a wonderful spectacle and an inspiring experience."

S.M. City Council Downs Wilson Ouster

With the grand jury eliminated as a mediator, the San Mateo City Council this week tackled the Wilson case itself, again heard Councilman Creed B. Haberlin's charges against the city attorney, Wilson's reply, and for the third time defeated a move to declare the office vacant by a three-to-two vote.

Observers believed that last night's action rang down the curtain on the matter that began June 7 when Councilman Haberlin, backed by Councilman Edward Reilly, charged Ernest Wilson used his office to foster city legislation from which property in which he held an interest would benefit.

Ralph Stokes Buys Apartment

Mr. and Mrs. Ralph W. Stokes have purchased an apartment house at Laurel and Ninth Aves., San Mateo, for approximately $26,500 according to a deed recorded at request of California Pacific Title & Trust Co. The sellers were Hugo and Eva Hultberg and Frank Norica of San Mateo.

Let's Grow It!

By Kolly Langley

What a change the war has brought to the status of gardening. World War I got men interested in gardening. This war is selling men and women on the benefits of growing your own green vegetables at home, or in the lot next door, or the nearby community project.

And since activity is so widespread, everyone can help by letting others benefit by his experiences.

So many questions are sent in that it's plain to see such help is needed. Some of the points which might easily be passed off as too well known now to need further explanation, some of these apparently are stumbling blocks for many a beginner.

Just as an example, let's try a little quiz here, and we'll print the answers tomorrow. See how many you answer correctly, without checking in your scrap book or asking some neighbor.

1. Why is gypsum often recommended instead of agricultural lime for California gardens?

2. Name at least three factors which might cause tomato blossoms to drop?

3. What is the difference between a soil conditioner and a fertilizer?

4. What determines how late snap beans can be planted in your community?

5. Name three reasons for irrigation instead of sprinkling in your garden.

6. Are the following chewing or sucking insects? Aphids white flies, diabrotica?

7. When is the best time to plant carrots for a Fall crop?

8. Why should a garden be irrigated after fertilizer is applied?

9. What kind of insecticides are used to control chewing insects? What kind for sucking insects?

10. Why are broccoli, cabbage and cauliflower planted in seed beds or flats, and not directly to the open garden?

11. What is the most common mistake made in gardening?

12. Does a bean have male and female blossoms?

Now there isn't a question there that should cause you trouble. However, there might be a difference of opinion on number 11. And just to make it plenty fair, score a right answer 9 points. None of them is a so-called catch question. Maybe we ought to run a quiz periodically in this column, just to cover the points brought up from day to day and to see if they're "sticking with you."

If you ever start to get an enlarged opinion of yourself, take time out to write an analysis of yourself as a gardener. Put it in the third person, and be sure to point out where you think this party you're describing might improve. Maybe you'll be surprised to see how such an essay turns out. Put it away for a week and then read it over.

I must confess that when I did it, the essay showed conclusively that this fellow Rolly Langley will be kept busy indeed if he overcomes all the failings uncovered. But he will get A for effort you can be sure.

QUESTIONS AND ANSWERS

Q. How should we prune raspberries and blackberries in order to get the best crop?—Mrs. A.B.

A. The canes on both raspberries and blackberries are biennials. They bear on second-year wood. As soon as the first crop is over, the canes which have borne fruit should be pruned off, and it's usual to leave 4-6 canes per plant—naturally, the strongest and sturdiest ones. After the first crop, most commercial growers give an application of fertilizer and heavy irrigations to stimulate rapid growth for a second crop.

Q. I find there are sowbugs in my garden. Do they do any harm? I was wondering if they could be eating the holes in the leaves of my cauliflower. —T. B. S.

A. Yes, definitely, sowbugs are harmful in the garden. They attack the stems of plants near the surface. The holes in the leaves of cauliflower could not be caused by sowbugs. Look for cabbage worms, which can be picked off by hand.

★ What You Buy With ★

WAR BONDS

Free the Seas

Before we win the final battle with Hitler's Nazis all navy men are agreed we must win the battle of the Atlantic; that is to free the sea lanes of the German U-boats.

A year ago we were building 54 cruisers and nearly 200 destroyers or just about enough for a two ocean navy.

Now we have come to realize that this war is to the finish, "winner take all," and our Government is building a five ocean navy.

That is why we are being asked to increase our subscriptions for War Bonds. That is why we must do it. *U. S. Treasury Department*

Flashes of Life

CASE DISMISSED

HUNTINGTON PARK (AP) — Norman Freberg, 23-year-old bewhiskered merchant seaman, was up before Judge Stanley Moffatt on a drunk charge.

He explained he had just returned to port, having spent 14 day on a raft after his ship was torpedoed on its return from Guadalcanal.

"I think you're entitled to a celebration," said the judge.

"Case dismissed."

★ ★ ★

OOPS! SORRY!

LYONS, Kas. (AP) — Volunteer Fireman El Anderson jumped up in the middle of the night to dress for an alarm.

His wife challenged him shortly thereafter:

"Take those off," she demanded. "You're not going to wear my slacks to any fire."

Questions-Answers

Q. If you bought a plot of land, and it was measured in jaribs, where would you be? Where if the unit was a manzana?

A. In Iran (Persia). If you were buying land in Nicaragua, Salvador, or Costa Rica, you would have to dicker for so many manzanas. A jarib equals 2.471 acres; a manzana, 1.742 acres.

★ ★ ★

Q. Who was the first National League batsman to be officially credited with a mark of over .400?

A. Ross Barnes, playing for Chicago, rung up a .403 in 1876.

DISCUSSION: Forum Group Talks of Willkie's Book

The unity theme for postwar peace developed by Wendell Willkie in his book "One World" engaged the Community Forum last week at Central School.

Asst. Dist. Atty. Daniel Sullivan developed the background, origin and nature of World War II. He pointed out the evils of the supineness of ours and other nations when the aggressions of Italy, Japan and Germany overwhelmed Ethiopia, Manchukuo, and Czechoslovakia. He emphasized the necessity of seasoning peace plans with the Christian principles of justice and charity.

Prof. Edward King of Stanford University developed Willkie's exposition of Russia as having created an effective society, united in a war effort. He warned against the danger of mistrust of the sincerity of the assurances of Soviet Russia that she will join with the democracies in bringing about equality of economic opportunities after the war.

Prof. Holbrook Bonney, now at Stanford University and formerly of Menlo Junior College, developed the topic: "What Are We Fighting For?"

"Peace After the War" was the subject of discussion of Mrs. Howard Ray, a former Sequoia High School teacher and now engaged in adult education work in Palo Alto.

Paul A. McCarthy, city attorney, as moderator, conducted the vigorous discussion from the floor, which followed the more formal addresses of the panel speakers.

The public committee will meet next on July 7 at St. Peter's Parish House to plan the August discussion.

E. R. Paolini Warns Of Danger

E. R. Paloini of Menlo Park, San Mateo County director of the ground observer corps, commented today on the recent remarks of Secretary of the Navy Frank Knox, to the effect that the West Coast is comparatively free from enemy air raids, claiming that such statements from high sources would demoralize volunteer work in the observer corps.

Paolini said:

"Statements by high officials minimizing the possibility of attack on our West Coast tend to demoralize and curtail the willingness of many volunteer workers.

"By realizing the fanaticism of the Japanese and that present war conditions could change overnight, it is apparent that our volunteer organization must and will be on the job until the war is over. It is difficult enough to maintain volunteer organizations on a 24-hour duty without conveying to the volunteer a feeling of perhaps wasted time and energy. We must forever be on the alert and not permit another Pearl Harbor on this coast."

In Revolutionary times American Marines were called "gentlemen sailors."

PUBLIC NOTICE

E. H. Cherry, Atty.
NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE
No. 81409—Dept. 4

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF ALAMEDA.

In the Matter of the Estate and Guardianship of MARY IDA COLE, also known as IDA M. COLE, an incompetent person.

NOTICE IS HEREBY GIVEN that the undersigned guardian of the person and estate of the above named incompetent person, will sell at private sale to the highest bidder upon the terms and conditions hereinafter set forth, and subject to confirmation by said Superior Court, on or after the 13th day of July, 1943, all the right, title, interest and estate of the said incompetent person in and to all that certain real property situate in the City of San Carlos, County of San Mateo, State of California, being an undivided two-thirds interest in and to that certain Lot No. 24 in Block 64, as designated on the map entitled, "White Oaks Tract, Subdivision No. 4, San Carlos, California," filed May 28th, 1926, in Book 14 of Maps at pages 1, 2, and 3 in the office of the County Recorder of said San Mateo County.

Terms and conditions of sale: For cash, lawful money of the United States, ten per cent of the amount bid to accompany bid and balance on confirmation of sale.

All bids or offers must be in writing and must be left at the office of E. H. Cherry, attorney for the undersigned guardian, 1212 Broadway, Oakland, California, or may be delivered to the guardian personally at 4854 Walnut Street, Oakland, California, or may be filed in the office of the Clerk of the above entitled Court, or may be left at the Redwood City Tribune, 30 California St., Redwood City, California, at any time after the first publication of this notice and before making of the sale.

Dated: June 23, 1943.

CLARA E. MYERS,
Guardian of the person and estate of said incompetent person.

E. H. CHERRY,
Attorney for Guardian,
1212 Broadway,
Oakland, California.

Bank's Deposits Over Half Million

American Trust Co.'s deposits have passed the half-billion dollar mark. The bank's June 30 statement shows deposits of $518,397,783.24, a gain of approximately $150,000,000 over the statement of a year ago.

Government bonds and cash totaling $336,437,785.07 represents an increase of $164,000,000 for the same period.

Loans have declined $10,596,449.78 and are now shown at $153,964,439.01.

Pres. James K. Lochead reports that the sale of war bonds by the bank now exceeds 550,000 in number for a total of over $65,000,000.

PUBLIC NOTICE

NOTICE OF TIME AND PLACE SET FOR HEARING OF PETITION OF EXECUTORS FOR AUTHORITY TO EXECUTE LEASE OF REAL PROPERTY AND PAY COMMISSION.
No. 10539—Dept. No. 1

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

PROBATE

In the Matter of the Estate of J. M. MANNON JR., also known as JAMES M. MANNON JR., also known as JAMES MILTON MANNON JR., Deceased.

NOTICE IS HEREBY GIVEN that James D. Adams, John W. Parker, and Wells Fargo Bank & Union Trust Co., as executors of the last will and testament of J. M. Mannon Jr., also known as James M. Mannon Jr., also known as James Milton Mannon Jr., the above named decedent, have filed with the above entitled court in the above entitled matter their petition for authority to execute a lease of real property and to pay a commission, and that Monday, the 12th day of July, 1943, at the hour of 10 o'clock in the forenoon of said day and the courtroom of said court, Department No. 1 thereof, situate in the County Courthouse in Redwood City, County of San Mateo, State of California, have been set as the time and place for the hearing of said petition, and all persons interested are notified then and there to appear and show cause, if any they have, why said petition should not be granted and why the order prayed for therein should not be made.

The aforesaid real property is more particularly described as the premises situate in the City and County of San Francisco, State of California, to-wit:

All that certain Apartment Numbered "6" contained in that eight-story and basement building situate on the north line of Jackson Street, between Laguna and Buchanan Streets, said building being more particularly known and designated as No. 2106 Jackson Street; together with garage space for one automobile.

Reference is hereby made to said petition for further particulars.

'Claudia' Closes On July 17

"Claudia," the radiant comedy by Rose Franken, will end its engagement at the Geary Theater, San Francisco, on Saturday evening, July 17. Seldom in the history of the theater has there been a more popular or successful play which has made stage history.

John Golden, the producer, sent the New York company, headed by Frances Starr, Donald Cook, Phyllis Thaxter and Olga Baclanova to the Pacific Coast, and a measure of "Claudia's" favor is due to the excellent acting of this quartette of stars as well as to the other original members of the supporting cast.

"Claudia" is a global hit; four companies toured this country at the same time and the play was a success in Australia, Sweden, and it is still current in London. It played for 722 times on Broadway, New York, which is a record, while extended engagements were enjoyed in Chicago, Boston, Philadelhia, and other important cities throughout the country. At the conclusion of the present engagement at the Geary, this company of "Claudia" will have played together for 136 weeks, which is an all time high in the theater.

"Claudia" has gained friends as a series of magazine stories, between the covers of five novels and as a radio serial. Its greatest success, however, has been as a stage comedy. It is estimated that more than a million and a half people have acclaimed the piece as the most human and humorous play presented on the stage for a decade. The naive young wife, Claudia, is hailed as a certain type of young American womanhood with hardly a home in America who is not familiar and friendly with a girl similar to this beloved young wife who is brought unexpectedly to face the stern realities of life.

The successful run at the Geary Theater in San Francisco is forced to a close because of the booking of Max Gorden's timely comedy, "The Doughgirls" on July 19. During the remainder of the run, performances will be given nightly, including Sunday, with bargain matinees on Saturday and Sunday. Special attention will be given to out of town mail orders and reservations.

Bruises Cause Court Order

Mrs. Emma Van Duesen, Burlingame Village housewife, has displayed a pair of black eyes and a number of bruises to Judge A. R. Cotton and won from him an order restraining her husband, Thomas, from assaulting or molesting her. She also filed suit for divorce.

Atty. Bush Finnell, representing Mrs. Van Duesen, charged that the husband, a crane operator in a Peninsula shipyard, delivered the wife a July 4 beating and ran her out of her home.

She asked custody of their son, aged 2; $100 monthly for support, and the right to return to her home without molestation from her husband.

Summertime baking—an economy measure

Kitchen pretty warm these days? Let the oven do most of your cooking work this summer! It's easier—and by the way, summertime baking is really an economy measure. Just think of the ways meat can be stretched with the aid of the oven . . . shortcakes, meat pies, and oh, so many other ways! Use meat drippings for shortening, and let the good flavor carry the meal forward.

BISCUITS—Let those meat drippings get firm in the refrigerator, then use them for making biscuits for meat shortcakes. Creamed hamburger is a grand topping. Or cut link sausages into small slices, fry them and make a gravy from the drippings and serve them over the biscuits.

MEAT PIES—Use the same kind of biscuit dough made with drippings for a covering for meat pie. Use leftover meat or small pieces of precooked meat, vegetables of your choice and enough thickened juice from the meat or vegetables to give moisture to the pie filling. Cover with biscuit dough and bake in a hot oven (450° F.) until the crust is rich, golden brown.

SUMMERTIME STUFFING—Ever think of serving stuffing in place of potatoes . . . even though you haven't anything to stuff? It is really something the family will like. For 3 cups of bread crumbs, add ½ tsp. salt, ⅛ tsp. pepper, sage or other seasoning to taste, saute sliced green onions, tops and all, and ½ cup meat drippings. Mix and pack into loaf pan or ring mold. (An egg or ½ cup of evaporated milk enriches and binds the stuffing together.) Bake in moderate oven (350° F.) for about one-half hour or until browned slightly. Serve as a meat accompaniment.

ECONOMY CAKE—Sift 2 cups all-purpose flour with 2½ tsps. baking powder, 1 tsp. cinnamon and ¼ tsp. cloves. Cream together 3 tbsps. shortening and 3 tbsps. meat drippings and add 1 cup of sugar gradually, creaming until smooth. Add 1 egg and beat well, then add flour mixture alternately with ⅔ cup milk. Then add 1 tsp. vanilla or other flavoring. Bake in greased layer cake pans or muffin tins in moderate oven (375° F.) for about 25 minutes or until done. Fill layers if desired with chopped raisins and honey mixture.

MOLASSES COOKIES—Use those meat drippings in your favorite recipe for molasses cookies. You'll get an honest-to-goodness old-fashioned flavor. And the cookies make grand accompaniments to fresh fruit.

VICTORY CANNING AND DRYING are current topics of conversation. Julia Lee Wright's article in this week's Family Circle tells you how to go about it. Helpful hints on sun and oven drying and jelly and jam making will make summer canning a pleasure.

Instructions For Canning

Housewives doing home-canning with wartime jar caps are cautioned to follow explicitly the instructions of the cap manufacturers if they wish to avoid unhappy experiences and waste in their patriotic effort to conserve. Spoilage of food and breakage of jars is certain to result, if instructions are not followed to the letter.

Proper methods and careful canning will insure excellent results, more important in the present food situation than at any other time.

The Glass Top Seal fruit jar cap, a wartime product developed to conserve metal, requires careful use, according to the home service departments of fruit jar manufacturers. This cap consists of a metal band, glass lid and rubber ring. With these three widely varied materials making up its component parts, the cap must be used according to important but easily followed instructions. First of all, the cap is not recommended for and must not be used in oven canning.

If the food is processed (cooked in a jar), one inch of space must be left in the top of the jar when filled, in order to allow room for expansion. If an open kettle is used, one-half inch space must be left in the top of the jar.

The next step is to place the rubber around the projection on the bottom side of the lid, and the lid must then be placed so that the rubber lies between it and the top edge of the jar. All jars on which top seal closures, either glass or metal, are used must have smooth top edges.

The band is then applied tightly and immediately loosened slightly, about one-quarter of a turn. Bands must fit loosely during the processing, or cooking. If an open kettle is used, the bands are to be screwed tight as soon as the jar is filled. After the processing is completed, the bands are screwed tight to complete the seal. The bands may be removed 12 hours after the canning operation. At no time should the filled jars be turned upside down.

The housewife who takes no chances on variance from any one of these simple but important steps is assured of success and the enjoyment of the delicious flavor of home-canned foods this Winter.

TAXES: Relief Costs Down

"San Mateo County's tax requirement for relief for 1943-44 should be considerably below the amount needed for 1942-43," California Taxpayers' Assn. stated today, studying relief costs in counties.

Total relief payments out of county taxes for May, 1943, amounted to $14,003 compared with payments from county taxes of $13,977 for July, 1942, the first month of the 1942-43 fiscal year. Total payments for relief in the county from federal, state and county funds amounted to $48,960 for May, 1943, compared with $49,161 for July, 1942.

Aid to the needy aged took $10,751 of county tax payments for May, 1943, compared with $10,540 for the preceding July, the association found. While old age aid rolls may increase in the coming months, the legislature cut the county's share of each old age relief case in half, effective July 1, 1943.

Aid to the needy blind cost the county treasury $538 for May, and $408 for July.

Aid to dependent children from county funds was $530 for May, and $573 for July.

General county relief, financed entirely by the county, cost $2184 for May, 1943, compared with $2456 for July, 1942.

Lots of Fun

Osborne Colson is one of the Canadian stars of the Ice Follies of 1943 currently engaged for a limited run at San Francisco's Winderland. The first of a series of Sunday matinee performances will be presented July 18 at 2 p.m.

Ice Follies On Sunday

Sunday, July 18, at 2 p.m. ushers in the first of a Sunday series of matinee performances by the Ice Follies of 1943, currently engaged for a limited run at San Francisco's Winterland.

The matinee performances have been scheduled because of the 48-hour work week, to permit war workers enjoying Sunday holidays to attend the Ice Follies, and for the accommodation of out-of-town patrons unable to attend the regularly scheduled evening performances.

Lovelier than ever and boasting of a galaxy of the world's finest skating stars, the Ice Follies of 1943 sets a new high for entertainment value, reinforcing its national reputation as "the No. 1 entertainment of the nation."

Capacity audiences continue to greet the Ice Follies nightly at 8 p.m. at Winterland, Post and Steiner Sts., San Francisco. The magnificent ice palace has been transformed into a winter fairyland for the annual engagement of the Ice Follies.

Mail orders will be filled in order of receipt, when accompanied by remittance and self-addressed, stamped envelope. The management regrets its inability to accept telephone reservations.

R.C. Woman Conducts Bond Sale

Mrs. Anna Bennett Robb, 943 Chilton St., has a sales record of which she is proud. Mrs. Robb, during 100 hours of volunteer work in Redwood City, has sold nearly $48,000 in bonds and more than $5800 in war stamps, she said today. These sales were purely the result of volunteer selling as Mrs. Robb's contribution to the war effort.

"When I have worked three more Saturday mornings I will have worked a year without missing a Saturday," Mrs. Robb said today. For the month of July she will have charge of the sales booth at the J. C. Penney store here in the firm's contribution to the nationwide war bond drive to be held throughout the month in 1610 Penney stores. With sales of at least $10,000,000 as their goal, the campaign got under way with a message of congratulations and good wishes from Secretary of the Treasury Henry J. Morgenthau Jr.

Morgenthau last year also congratulated the Penney Company personally when its stores sold nearly eight and a half million dollars' worth of war bonds and stamps during the month of July.

Sales clerks in other local stores are joining the national "Shangri-La" campaign for July to sell the equivalent of a dollar's worth of war stamps to every individual in the United States—results from which would purchase an airplane carrier to be named the "Shangri-La."

CHP To Enforce Safety Precautions

California Highway Patrolmen operating in San Mateo County today were instructed to enforce rigidly Section 600 of the vehicle code prohibiting the throwing of lighted cigars, cigarets and other burning material in rural areas from moving vehicles.

In a bulletin to Capt. E. F. Cassell, Chief Raymond E. Cato called attention to the desperate need of protecting all potential sources of food from fire and ordered the local officers to issue arrest citations in every case where the circumstances are deemed to justify such action.

Redwood City Fire Losses Show Increase

Fire losses in Redwood City in the year ending June 30 were twice as high as in the year before, the annual report of the city fire department revealed today.

Almost all of this loss resulted from fires in buildings, in spite of the fact that the number of building fires decreased from 57 in the previous year to 35 in the year just ended, Fire Chief Mark E. Ryan said.

About one-third of the loss came during the month of June.

Losses for the year were estimated at $18,790 as compared with $9,304 for the year before.

The fire loss per capita for the year concluded is exactly double that of the previous year—$1.34 as compared with 67 cents.

Redwood City's record, however, compares favorably with other cities, Ryan said today. He said the figure was lower than the general average.

Last figures available for the United States, for the year 1940, give $2.18 as the loss per capita. In cities of over 25,000 population the loss is $1.40.

Except for fires in buildings the number of fires of all types increased over the previous year. The most noticeable increase was in grass fires. Last year there was 139; in the year before 64 were reported. Total damage from outdoor fires for all types, however, came down from $650 to $600, according to the report.

Chief Ryan said he could give no reason for the increase in grass fires. There is a general tendency, he said, for the number of fires to increase during boom times when people are busy.

Total personnel of the department in June was 18. Even leaves of absence were granted to firemen during the year and resignations were accepted from three. There were no dismissals. Ten men were appointed to the force, leaving the total as before.

Besides regular personnel the department has a number of volunteer auxiliary firemen. Chief Ryan made special mention of these men. They are efficient and quck to respond, he said. Although not summoned for ordinary fires, many of them respond voluntarily and do a good piece of work.

The department responded to 285 alarms during the year. In the year previous year they responded to 208. Fifteen emergency or rescue calls were received—three times the number for the year before. Seven needless calls were sent in, seven accidental calls and 19 false alarms.

Alarms received by telephone totalled 196. There were 37 box alarms and 52 axuiliary and miscellaneous alarms.

Three deaths were listed on the records of the department. In all three cases firemen responded to an emergency call where an inhalator was needed. Heart attacks caused two of the deaths and a cave-in caused the other.

Landis Criticizes Knox's Statements

BURLINGAME — Declaring that "being at war, we cannot be deflected from our tasks by casual statements and casual talk" James M. Landis national director of the Office of Civilian Defense, has indirectly rapped Secretary of the Navy Frank Knox for his recent statement that the West Coast is relatively free from raids.

In a telegram received today by the San Mateo County Civilian Defense Council in Burlingame, Landis attacked Knox' comments on the matter by intimating that the secretary of the navy was thinking about something for which he was not responsible.

"You must remember the ultimate responsibility for the defense of Continental United States lies with the army," Landis wired the county group. "Consequently any statements to be given that credence upon which you and the public should rely and which therefore necessarily affects the conducts of millions of citizens should eminate from the sources that have this responsibility for the defense of the United States."

DRIVING CHARGE

SAN CARLOS—Victor Owen of Mountain View was booked on a charge of driving while drunk at 12:45 Monday morning by San Carlos police officers and lodged in the county jail in Redwood City. He was picked up on the highway near Eaton Ave.

Arizona highway patrol cars are equipped with cameras that record the speeds and license numbers of fast-driving motorists.

THAT NIGHT A MIRACLE HAPPENED

EXCERPT from a letter from Africa . . .

"It is night in a field dressing station. They bring in a soldier who's gone into shock. He looks like he is dead. And they start plasma flowing into him and back he comes. I tell you there are a lot of fellows coming back from Africa who wouldn't have returned if plasma wasn't on hand. That plasma is miraculous."

NOT ONCE but many times by the hundreds, before the tired eyes of doctors and nurses, blood plasma has performed its miracles in battle zones on land and sea.

Look at the record. In this most merciless war of all time, modern medicine has cut the death rate of wounded men from the 1918 figure of 7% to less than 1% today.

Beyond price. In this most expensive war of all times, the most priceless medicament is plasma—dried blood. Its sole supply is from voluntary blood donors.

The need is great. Northern California quota is 5000 Blood donors a week for the Red Cross Procurement Centers in San Francisco and Oakland.

What to do. Arrange for an individual blood donation at your nearest Red Cross Chapter or come as a group, as many clubs, churches, labor unions and fraternal organizations have done.

Why you MUST come to San Francisco or Oakland! Blood procurement centers must be located near dried blood laboratories. There are only nine such laboratories in the United States. California has two of these—one in Berkeley—one in Los Angeles.

Cut out and mail in the coupon appearing below. You will get a prompt reply. If you live some distance away from the Bay area, you can use the coupon, make arrangements through your local Red Cross, or phone for an appointment. Northern California must not fail in its weekly quota of 5000 Blood Donors.

RED CROSS BLOOD DONOR CENTER
2415 Jones Street, San Francisco or 521-29th Street, Oakland
